

Summit Chalet Seating Arrangements

The Summit Chalet offers four table set-ups using 3'x3' square tables. Next to each diagram is the approximate number of guests that can be accommodated in each set-up. You will not include your head table number or vendors who will not be seated at your guest table when finalizing your guest table selection.

The head table design is available in an "L" shape for larger weddings and we provide white or black skirting. We can also do a sweetheart table for weddings up to 125 guests.

~ Traditional Wedding Seating ~

Our most popular choice, our 3'x9' table seats anywhere from 8 to 12 guests and is the set-up for max capacity weddings.

Seating 8: 13 tables for a max of 104 guests + your head table

Seating 10: 13 tables for a max of 130 guests + your head table

Seating 12: 13 tables for a max of 156 guests + your head table

Our 3'x6' tables seat 6 to 8 guests and is a great set-up for small to medium weddings.

Seating 6: 16 tables for a max of 96 guests + your head table

Seating 8: 16 tables for a max of 128 guests + your head table

~ Family Style Seating ~

At the Summit Chalet we are able to run long banquet style tables which can accommodate up to 120 wedding guests. This set-up does not allow for a head table and is intended for a seating chart where wedding party and wedding guests are intermingled.

At any point our Group Sales team is happy to put together various floor plan options showing you what could work for your wedding day. Final set-up does not need to be decided on until 4 weeks prior during your final planning meeting.
